GitHub: github.com/ShiniyaBenny | LinkedIn: www.linkedin.com/in/shiniya-benny-523846250

Location: Kerala, India

MSc Data Analytics student with a strong foundation in data analysis, machine learning, and analytical problem-solving. Focused on deriving meaningful insights to support effective decision-making.

PROFESSIONAL EXPERIENCE

Customer Support Executive — Sutherland Global Services 2023-2024

Business Development Executive — SBI Life Insurance 2022-2023

EDUCATION

MSc in Data Analytics and Computational Science 2024- present
Kerala Digital University of Science Innovation and Technology
Expected Graduation: July 2026

BSc in Physics 2019-2022
St. Albert's College, Ernakulam

TECHNICAL SKILLS

Programming Languages: Python, SQL

Frameworks/Libraries: TensorFlow, Scikit-learn, Keras, Pandas, NumPy, Matplotlib, Streamlit

Tools & Platforms: GitHub, VS Code, Jupyter, Google Colab, Power BI

Other: Data Preprocessing, Model Evaluation, Version Control, ESG Metrics Awareness

PROJECTS

A Deep Learning Framework for Multi-Disease Detection(Capstone project)

Developed a CNN-based diagnostic system for detecting Alzheimer's, lung cancer, pneumonia, and breast cancer from medical images and clinical data.

Enhanced Chat-with-Documents

Built an intelligent document chatbot integrating summarization, sentiment analysis, and information retrieval using LangChain, HuggingFace, FAISS, and Streamlit. ([ShiniyaBenny/-chat-with-documents-app](#))

SignBot – Real-Time Sign Language Recognition System

Developed a real-time sign language assistant using OpenCV, CLIP embeddings, and an SVM model to recognize hand gestures and convert them into text. Integrated Gemini API for contextual responses and TTS for seamless communication. ([ShiniyaBenny/Sign-Language-detection](#))

Document-Based Question Answering System

Developed a document-based QA system using FastAPI, Sentence Transformers, and Weaviate, enabling semantic search and accurate question answering over text documents.([ShiniyaBenny/debyeze-ai-document-qa: Document QA system using FastAPI, LangChain, and Weaviate](#))

CERTIFICATIONS & COURSES

Deep Learning Specialization – Coursera

Preparing Data for Analysis with Microsoft Excel – Coursera

Machine Learning with Python – IBM

Generative AI for Beginners – Google Cloud

ACHIEVEMENTS

Recognized for developing innovative AI/ML solutions during institutional competitions and technical evaluations.

Selected for multiple Data Science internships based on academic performance, project quality, and demonstrated technical leadership.
